The company's plant is located at Petros.

The bible—this book contains the mind of God; the state of man, the way of salvation, doom of sinners, and happiness of believers. Its doctrines are holy, its precepts are binding, its histories are true, and its decisions are immutable. Read it to be wise, believe it to be safe, and practice it to be holy. It contains light to direct you, food to support you, and comfort to cheer you.

Morgan Co. Farmers

Start an Orchard

NOW IS THE TIME TO BEGIN  
START ONE THIS FALL

We doubt if there is any where in the Southern states a section so well adapted to fruit raising as is Morgan County a part of the Cumberland Plateau.

Nowhere in the south, even in the far famed Piedmont section of North Carolina, can be found better climatic and soil conditions than can be found on our mountains as well as on our table land. Those mountain slopes, more especially which dip to the south invite you to put out apples, pears and peaches, and almost any kind of small fruit, such as strawberries, figs and prunes, which give good returns on the investment.

With a range of soil and climatic condition which are most favorable for the production of most kinds of semi-tropical fruits is it not about time for our Morgan County farmers to make this section a land of orchards from one end of Morgan County to the other.

Every farmer in the county can and should have a healthy growing orchard so that he may have delicious, healthgiving fruits the year round if the right and proper steps are taken.

Good fruit the year round should be the aim of every farmer, worthy of the name of farmer, in Morgan County and the way to get it is to plant an orchard of the right varieties and then look after it.

If you haven't a good home orchard there is no better time than right now to prepare for one.

Rev and Mrs Demetrio and family have returned to our city from an extended visit in Missouri and the west.

Hon S H Jestes, our popular County Clerk returned Monday morning from a tour of Jefferson county, speaking in the interest of the Republican ticket, both National and State. He spoke at several points in the county to large and enthusiastic audiences. Mr Jestes is satisfied that the Republicans of Jefferson County, and in fact of all East Tennessee, will give a good account of themselves on November 7. He left Wednesday morning for Roane and Anderson counties and will wind up with two speeches in Morgan County, one at Rugby on Friday evening and one at Deer Lodge Saturday evening.

### TWO MORE STEEL BRIDGES

The County Court met in special session last Monday and passed a resolution authorizing the Bridge Commission to let contracts for two more steel bridges in Fentress County. These two bridges are to be built across Clear Fork, one at Peters Ford and one at Brewster Ford, in conjunction with Morgan County, the expense to be equally divided between Fentress and Morgan counties. Bids for the construction of these two bridges are now advertised. Thirty-five miles of Pike road and four steel bridges for Fentress County! Thank to our generous and progressive County Court.—Fentress County Gazette.
